New et al. argue that survival necessitated keeping an eye on animals (both human and non-human) in the ecology of evolutionary adaptiveness of the human species. For example, humans could turn out as potential mates, friends, or foes, and animals could signal a meal or a potentially deadly threat. Therefore, they argue, the human attention system evolved category-specific selection criteria to ...

Has evolution primed humans to “beware the beast”?

Beware the Beast was a Star Trek: The Original Series comic strip published in 1969. It was the third story in the UK comic strips series, and was released in four parts, in issues of Joe 90: Top Secret. In this story, the crew of the USS Enterprise searched for missing families of sentient apes on the planet Angoma. A friendly sword-fight with James T. Kirk and Gif in a stadium full of ...
