Jack And The Meanstalk
The book "Jack and the Meanstalk" is about a guy named Professor Jack who was obsessed with his garden. One day he noticed that his plants were taking way too long to sprout for his liking so he went into his laboratory to try to find a way to make his plants grow so fast so every other gardner would envy him and his plant.

Jack and the Meanstalk by Brian Wildsmith
Professor Jack, a scientist, makes the mistake of messing with Mother Nature. In an effort to speed the growth of his garden, he concocts a chemical fertilizer, but the experiment runs awry when a "meanstalk" stoked on steroids bursts through his laboratory rooftop into the ozone. Soon, the fearsome foliage begins to block the sun.

Jack and the meanstalk "When vegetables don't grow quickly enough, what's a gardener to do? If he's a scientist like professor Jack, he goes into his laboratory and starts experimenting... he certainly didn't mean to concoct a plant that shoots through the roof and into the sky, menacing humans and animals alike.

Jack And The Meanstalk — BRIAN WILDSMITH
Professor Jack invents a magic formula in his laboratory, and the next day is amazed to see a huge beanstalk sprouting up. It grows so big it smashes through his roof and goes up and up into space.

Jack & The Beanstalk is a tale where we see how Jack is able to use his wits to defeat the giant and save himself and his mother from growing poor. First he meets an old man with a cow who sells him some beans then, which he throws into a garden, from there a beanstalk grows and up he climbs to the giants castle.

Jack and the Beanstalk - Storynory
This week we began the tale of Jack and the Beanstalk. Today I thought I would share a few of the math activities we have been doing. They are obvious ideas but perhaps new in the application in this story! I wanted to take the concepts of 'enormous' and 'giant' and bring them to life with math. The Giant's Hand and Estimation I had a super large hand photocopied on paper that we estimated how ...
