You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

The 350 and 250 share the same basic architecture when it comes to the engines, so visually they look identical. Internally, though, the six-speed transmissions have different ratios, and the final gearing to the rear wheel is different, adding up to a big difference in feel between the two. The 250 EXC-F. new to KTM dual sport lineup, is way fun.
