The manual transmission system is also called the manual gearbox. There are at least 5 gears in the gearbox of different sizes. Bigger gears slow down the vehicle, and smaller gears speed up the vehicle. You need to switch gears at the appropriate times while driving, according to how fast you need to go. Manual Transmission Components

### **Manual Transmission Parts - Manual Transmission Repair**

The engine must have a means of disconnecting from the transmission so it stays running when the vehicle is stopped. On an automatic transmission this device is called a torque converter, while vehicles with manual transmissions have a clutch. The clutch is engaged every time the vehicle pulls away from a stop and the driver shifts gears, so it is subjected to considerable wear and must be ...
