Beust & Suleiman, Next Generation Java Testing: TestNG and ...

In this tutorial of three articles, my goal is to share knowledge regarding Test Next Generation (TestNG). TestNG is a powerful Test Framework for testing Java code. A Test Framework is a pattern for writing and running Test Scripts. Thanks to xUnit, we have a family of frameworks for testing many programming languages. TestNG is not a part of xUnit but was influenced by xUnit. JUnit, NUnit, and PyUnit are some of the frameworks within the xUnit family.

The Power of TestNG (Test Next Generation) | TestProject

TestNG is a Java unit testing framework that aims to overcome many limitations of JUnit. In this interview with Artima, TestNG creator Cédric Beust describes what JUnit deficiencies TestNG aims to solve, and talks about some common

Next-Generation Testing with TestNG - artima

In TestNG, NG stands for " Next Generation ". TestNG framework eliminates the limitations of the older framework by providing more powerful and flexible test cases with help of easy annotations, grouping, sequencing and parametrizing. Advantages of TestNG over Junit In TestNG, annotations are easier to understand than Junit.
