### The Schooling Of Working Class

The children of the working class approach school with a different attitude than those of higher class. This is because their sense of entitlement is lower than that of their middle class counterparts. Working-class students sometimes feel unentitled or that they do not belong in affluent high schools or colleges.

### Working class education - Wikipedia

The Schooling of Working-Class Girls in Victorian Scotland examines and challenges this assumption and analyzes in detail the course of events which has led to a more enlightened system. Education was, and is, seen as integral to Scottish distinctiveness, but the Victorian period saw anxious debate about the impact of outside influences at a time when Scottish society seemed to be fracturing.

For example, the working class is loosely defined as those without college degrees. Working-class occupations are then categorized into four groups: unskilled labourers, artisans, outworkers, and factory workers. A common alternative, sometimes used in sociology, is to define class by income levels.

### Working class - Wikipedia

Under capitalism education for working class people serves the needs and purposes of the ruling class to train a workforce able to perform the ever more complicated tasks required of them. We need to remember that free and universal education is a relatively recent right afforded to working class people for just over a century in Britain.

### Education and the working class | Socialist Appeal

The author discusses the influences of society and the family upon formal education provision for working-class women, and she examines the basic schooling for girls which determined the type of adult education they could undertake in later life. 'Hard Lessons' is an invaluable reversal of the invisibility of working-class women in the history of the nineteenth-century.

### Hard Lessons: The Lives and Education of Working-Class ...

And though socioeconomic status and educational inequality are closely related, some working-class undergraduate students attended well-resourced K-12 schools. Through school, possibly through enrichment programs, and perhaps through the social capital of extended family and friends, they were well prepared, cognitively and socially, for college.
