Waste: Uncovering the Global Food Scandal by Tristram Stuart

The journey is a personal one, as Stuart is a dedicated freegan, who has chosen to live off of discarded or self-produced food in order to highlight the global food waste scandal. Combining front-line investigation with startling new data, Waste shows how the way we live now has created a global food crisis—and what we can do to fix it.

Waste: Uncovering the Global Food Scandal by Tristram ...

Industrialized countries waste 670 million tonnes. Developing countries lose 630 million tonnes. Total lost or wasted globally: 2.3 billion tonnes. About 2/3 of household waste is due to food spoilage from not being used in time, whereas the other 1/3 is caused by people cooking or serving too much. Only about 3% of food scraps in the U.S. are composted.

I first opened my eyes to the global food waste scandal as a teenager when feeding my pigs at home with waste from the local baker, greengrocer and my school canteen. The food I found in supermarket bins was so shockingly fresh and high quality that I started eating it myself as a protest against the injustice of food waste.
