and work on a micro level; by analyzing and refining the separate internal sub-systems, the systems that, added together, comprise the whole primary system business entity.

Readers will learn how to "tweak" this "system of systems" in order to maximize profits, create client loyalty, and develop autonomous employees.

If no candidate wins at least 270 electoral votes, the House of Representatives, choosing from among the top three electoral college finishers, elects the president by simple majority vote. Although the electoral college result has typically been in alignment with the national popular vote, there have been some very notable outliers.
